

# The Mobile Business Phone System

Brought to you by

**Bring your smartphones and  
office extensions together**

No App Needed! Make your smartphones actual extensions on your Phone System with superior call quality and maximum functionality.

Can your smartphone do everything the office phone can do? **YES**

- Routing groups can include smartphones
- Call logs and reports include office and cell calls
- Call Center capabilities extend to mobile devices

# The Mobile Business Phone System

- Make office extension calls from your smartphone keypad
- Customers see your business phone number not individual cell numbers
- "Click to Call" through apps – no copy and pasting needed
- Optionally record all calls on each smartphone
- Note each call with call recording link in CRM (software dependent)
- Text Message capture capabilities

**CAPABILITIES**
